Manager

ABOUT ME

I started Hacettepe University-Geomatics Engineering in 2015 and graduated in June 2021. During my education, I tried to train myself as a qualified engineer. I started to be interested in software development in University and I started Bilge Adam Boost Full Stack Development Education Program. I also finished my military service.

WORK EXPERIENCES

• JR. FULL STACK DEVELOPER

Bilge Adam Technology- Ankara/Bilkent - 2022-2023

I am developing projects with the technologies I learned in this process, which continues in the form of 6 months of application-based .Net Full Stack Developer training and then 2 months of active internship. In my ongoing Software Developer training, I gained experience in software development with .Net Entity Framework, .Net Core, ASP.Net MVC technologies on the Backend side. On the frontend, I gained Web Design skills with HTML5, CSS3, Bootstrap5, Javascript and JQuery. I also learned MSSQL and PostgreSQL principles on the database side. In the remaining period, I will be working on JS libraries such as React, Angular and various design patterns used in the industry. Check out my projects on my github account: <https://github.com/yunusemrehardal>

• GEOMATICS ENGINEER

RK Soft Bilişim Teknolojileri A.Ş - Ankara/ODTU Teknokent - 2021-2022

Worked in YERBIS and MEYDIP project with Surveying and GIS programs.

• FOOD AND BEVERAGE

Turning Stone Casino - Oneida City / New York - Jun 2019 - Sep 2019

Work And Travel Program

Worked with people from different cultures. Coordinating the wedding kitchen and serving people.

PROJECTS

- ✍ A Sample N-layered .NET CORE Project with SOLID Principles, Demonstrating Clean Architecture and the Generic Repository Pattern.
